Profile Summary:

Frontend Developer with 2 years of hands-on experience in building responsive and scalable web applications using **Angular, TypeScript, JavaScript, HTML, and CSS**. Proficient in developing **reusable UI components**, implementing dynamic features, **integrating RESTful APIs**, and optimizing application performance for **cross-browser compatibility**. Strong focus on user experience, clean code practices, and continuous learning in modern frontend technologies.

Professional Experience:

Software Developer in Test (SDET)

XYZ Technologies Pvt Ltd — Ambattur, Chennai.

Mar 20XX – Present

- Frontend developer with hands-on experience building **Angular-based Single Page Applications (SPA)** using **TypeScript, JavaScript, HTML5, and CSS3**.
- Designed and developed **reusable, modular UI components** following Angular best practices and component-based architecture.
- Integrated **RESTful APIs** to fetch and render dynamic data, implementing proper loading states and error handling.
- Developed **analytics and reporting dashboards** using **ApexCharts** to visualize application metrics and user activity.
- Implemented responsive UI designs using **Bootstrap**, ensuring cross-browser and multi-device compatibility.
- Worked extensively with Angular services, observables, and asynchronous data flows to ensure smooth UI updates.
- Collaborated with backend developers and QA teams in an **Agile/Scrum** environment to deliver features on time.
- Used **Git and GitHub** for version control, feature branching, and code reviews.
- Debugged and optimized UI performance using **Chrome DevTools**.

Associate

XYZ — Tharamani, Chennai.

Sep 20XX – Nov 20XX

- Handled **150+ customer queries weekly** through chat and voice support while maintaining a **95% customer satisfaction rating**.
 - Demonstrated strong **problem-solving and analytical skills** to resolve customer issues efficiently.
-

Technical Skills:

- **Programming:** JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL
 - **Frameworks/Libraries:** Angular, RxJS, Bootstrap
 - **Web Architecture & Concepts:** Single Page Applications (SPA), Component-Based Architecture, Modular UI Design
 - **API Integration:** RESTful APIs, HTTP Client, JSON, API Consumption and Error Handling
 - **Tools & Version Control:** Git, GitHub, VS Code, Chrome DevTools, Postman, Swagger
 - **Build & Package Tools:** npm, Angular CLI
 - **Other Technologies:** Sprint Planning, Bug Fixing, Code Reviews, Application Developer, Release Management, Project Risks, Agile, Angular, Best Practices, Communication, Communication Skills, Computer Science, CSS, Design, Front-End, Growth, HTML5, Implement, Interface, JavaScript, jQuery, JS, Photoshop, Rest API, RESTful, Scope, Scrum, SCSS, SEO, Sketch, Software, Solutions, User Interface, Validate, Visual Studio, Wireframe, XHTML, Web Design, Web Developer, Web Security, Web Standards, Continuous Integration, GCP, Gradle, MSSQL, Organizational Skills, Performance Metrics, Product Manager, Time Management
-

Projects

MAIL – Gmail-Based Web Application

Technologies: Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, Bootstrap, ApexCharts, RESTful APIs

- Contributed to the frontend development of ADS MAIL, a Gmail-based web application, using **Angular** and a component-based architecture.
- Developed reusable and modular UI components using **Angular, TypeScript**, and best frontend practices.
- Integrated REST APIs to fetch and manage email data, implementing loading states and error handling for seamless UX.
- Implemented data visualization and analytics dashboards using **ApexCharts** to display email statistics, usage insights, and activity metrics.
- Built responsive and user-friendly layouts using **HTML5, CSS3, and Bootstrap**, ensuring cross-device and **cross-browser compatibility**.
- Handled asynchronous data flows using Angular services and **observables for smooth UI updates**.
- Implemented **form validations** and interactive UI behavior for user inputs and actions.
- **Optimized frontend performance** by improving component structure and reducing unnecessary re-renders.
- **Debugged** UI issues using **Chrome DevTools** and ensured consistent behavior across browsers.
- Collaborated with backend developers and QA teams in an **Agile/Scrum** environment to deliver features on time.

Expense Tracker Web Application – Personal Project

Technologies: Angular 19, TypeScript, HTML, CSS, Chart.js, ng2-charts

- Developed modular standalone **Angular components** (Transaction Form, Transaction List, Expense Chart, Summary) for scalability and reusability.
- Implemented **robust** form validations for accurate transaction input and applied **Angular pipes** (currency, date formatting) to enhance user experience.
- Created interactive real-time Pie Charts using **Chart.js** and **ng2-charts** to visualize expenses and trends.
- Managed stateful transaction data with event-driven communication between components.
- Ensured responsive design and smooth UX across devices.

Education:

Master of Science (M.Sc.) in Mathematics
ABCD College for Women, Chennai

Teynampet, Chennai
Jun 20XX– Apr 20XX

Bachelor of Science (B.Sc.) in Mathematics
ABCD for Women, Chennai

Teynampet, Chennai
Jun 20XX– Apr 20XX

Certifications

- **Full Stack Development** – Besant Technologies
- **Data Structures and Algorithms** – Udemy
