

SHARATH R

Python Django Developer

✉ sharath9042@gmail.com | 9042844980 | [🌐 LinkedIn](#) | [💻 GitHub](#)

PROFESSIONAL SUMMARY

Python Django Developer with hands-on experience in **backend development**, **Django**, and **Django REST Framework (DRF)**. Skilled in building **secure RESTful APIs**, implementing **CRUD operations**, **authentication & authorization**, and integrating **PostgreSQL/MySQL databases** using **Django ORM**. Experienced in **API validation**, **JSON-based request/response handling**, and **API testing**. Passionate about developing **scalable, maintainable backend applications** and seeking an **entry-level Django/Backend Developer role**

TECHNICAL SKILLS

Backend: Python, Django, Django REST Framework (DRF), REST API Development, Backend Development

Authentication & Security: Authentication, Authorization, Basic Authentication, Permissions, API Security

Database & ORM: PostgreSQL, MySQL, SQLite, Django ORM, Database Design

Frontend: HTML, CSS, JavaScript (Basic)

Tools: Git, GitHub, VS Code

Concepts: CRUD Operations, API Integration, JSON, MVT Architecture

PROJECTS

Country Data API | Python, Django, ORM

[GitHub](#)

- Developed a RESTful API using Django to manage and serve global country data.
- Implemented custom JSON serialization for precise API responses.
- Designed relational database schemas ensuring data integrity and efficient CRUD operations.
- Gained deep understanding of Django request-response lifecycle without external libraries.

Employee Management System | Python, Django REST Framework

[GitHub](#)

- Developed a secure backend RESTful API using Django REST Framework to manage employee records with JSON-based requests and responses.
- Implemented CRUD operations with proper HTTP methods (GET, POST, PUT, DELETE) for employee data.
- Integrated Basic Authentication and IsAuthenticated permission to restrict API access to authorized users.
- Applied serializer-level validations for JSON data integrity, including unique email and positive salary constraints.

Form Validation Web Application | HTML, CSS, JavaScript

[GitHub](#)

- Developed client-side form validation for required fields, email format, and password rules.
- Displayed real-time error messages to improve user experience.
- Designed responsive UI using HTML and CSS.

EXPERIENCE

Python Django Intern

Oct 2025 – Present

Luminar Technolab, Thrissur

- Trained in Python and Django-based web development.
- Developed backend logic using Django MVT architecture.
- Worked on database integration and server-side form validation.
- Collaborated on version-controlled projects using Git and GitHub.

EDUCATION

Bachelor of Engineering (BE) – Computer Science Engineering

Nov 2021 – May 2025

Asian College of Engineering and Technology

Higher Secondary Education (Maths – Computer Science)

Oct 2019 – Aug 2021

Govt Higher Secondary School, Sreemadurai
