

SHARATH R

Full Stack Developer | Python Django Developer

Nilgiris | rsharath158@gmail.com | +91 90428 44980

[LinkedIn](#) | [GitHub](#)

Profile Summary:

Full Stack Developer with hands-on experience in building scalable web applications using Python, Django, Django REST Framework (DRF), and React.js. Skilled in designing RESTful APIs, implementing JWT-based authentication & authorization, and optimizing PostgreSQL databases. Experienced in developing AI-powered applications using Google Gemini API, transforming raw user data into intelligent outputs. Strong understanding of backend architecture, API security, and full-stack development lifecycle with a focus on performance and clean code.

Education

Bachelor of Engineering — Computer Science Engineering

Nov 2021 – May 2025

Asian College of Engineering and Technology

Higher Secondary — Maths & Computer Science

Oct 2019 – Aug 2021

Govt Higher Secondary School, Sreemadurai

Technical Skills:

- **Programming:** Python, JavaScript (ES6), HTML5, CSS3
- **Frontend :** React.js, Tailwind CSS, Responsive Design, Context API
- **Backend:** Django, Django REST Framework (DRF), Node Js(Basic), RESTful API Development
- **Databases:** PostgreSQL, MySQL, Django ORM, Query Optimization
- **Authentication:** JWT Authentication, Role-Based Access Control, API Security, Permissions
- **Tools & Version Control:** Git, GitHub, VS Code, Postman, REST API Design
- **Concepts:** CRUD Operations, MVT Architecture, API Integration, JSON, Version Control, Error Handling, Pagination

Projects

Smart Diet Planning System — Python · Django REST Framework · JWT · PostgreSQL · Gemini API

- Developed a **full-stack AI-powered diet platform** with 12+ REST APIs using Django & DRF, enabling real-time calorie tracking and user management.
- Integrated **Gemini API** to generate personalized diet plans, reducing manual effort by ~100% and improving user experience.
- Optimized PostgreSQL queries and ensured API reliability through **validation, error handling, and Postman testing**.

AI-Based Resume Generator — Python · Django REST Framework · JWT · Gemini API · PostgreSQL

- Developed an **AI-driven resume generation platform** with 8+ REST APIs to transform structured user data into professional, ATS-friendly resumes.
- Integrated **Gemini API for content generation**, enabling dynamic resume section creation with improved formatting and keyword optimization.
- Implemented **JWT authentication**, modular backend architecture, and robust validation to ensure secure, scalable, and maintainable APIs.

Experience:

Python Django Intern | Luminar Technolab | Thrissur, Kerala

- Developed **full-stack applications** using Django, DRF, React, and Tailwind CSS, improving application responsiveness and usability
- Designed and implemented **RESTful APIs and database models**, ensuring efficient data handling and secure access
- Collaborated in a team using **Git version control**, following structured development workflows.
