

SHARATH R

Python Backend Developer

Calicut | rsharath158@gmail.com | 9042844980 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Python Web Developer with hands-on experience in Django and Django REST Framework, specializing in backend development, REST API design, authentication, and database integration. Strong knowledge of Django ORM, CRUD operations, and API testing using REST API testing. Seeking an entry-level backend or Django developer role to contribute to scalable and secure web applications.

EDUCATION

Bachelor of Engineering (BE) – Computer Science Engineering

Nov 2021 – May 2025

Asian College of Engineering and Technology

Higher Secondary Education (Maths – Computer Science)

Oct 2019 – Aug 2021

Govt Higher Secondary School, Sreemadurai

TECHNICAL SKILLS

Backend : Python, Django, Django REST Framework (DRF), REST API Development

Authentication & Security : Authentication, Authorization, Permissions

Databases : PostgreSQL, MySQL, Django ORM

Frontend : HTML, CSS, JavaScript (Basic)

API & Tools: REST API, Postman, Git, GitHub

Concepts : CRUD Operations, API Integration, JSON, MVT Architecture

SOFT SKILLS

- Problem-Solving
- Team Collaboration
- Continuous Learning
- Time Management

PROJECTS

GitHub

Smart Diet Planning System | Python, Django REST Framework, JWT, AI Integration

- Developed a RESTful backend using **Django** and **Django REST Framework** to manage user profiles, food logs, and calorie tracking.
- Implemented secure authentication using **JSON Web Token** for protected API access.
- Built APIs for meal logging, calorie calculation, and daily nutrition summary tracking.
- Integrated **Google Gemini** API to generate personalized Kerala-style diet plans based on user goals.
- Tested and validated all APIs using **Postman**.

AI-Based Resume Generator | Python, Django REST Framework, Gemini API

GitHub

- Developed a backend application using **Django** and **Django REST Framework** to generate professional resumes from user input data.
- Implemented secure authentication using **JSON Web Token** for protected API access.
- Integrated **Google Gemini** API to automatically generate structured and professional resume content.
- Designed APIs to collect user details such as skills, education, and experience and convert them into formatted resume sections.
- Tested and validated API responses using **Postman**.

INTERNSHIP EXPERIENCE

Python Django Intern

Oct 2025 - Present

Luminar Technolab, Thrissur

- Gained hands-on experience in backend development using Python, Django, and Django REST Framework for building scalable web applications.
- Developed RESTful APIs and backend logic following the Django MVT architecture.
- Implemented database models, API serializers, and server-side validation for efficient data handling.
- Collaborated on version-controlled projects using Git and GitHub
